AIMS AND SCOPE

Journal of Otolaryngology and Head & Neck Surgery is an open-access, peer-reviewed periodical dedicated to bridging the gap between clinical experience and global medical literature. It focuses on the understanding and management of various pathologies and diseases affecting the ear, nose, throat, head, and neck. The journal explores recent advancements and research in diseases, health, and medical science through robust, evidence-based clinical research studies. Positioned as a vital resource for postgraduate students, consultants, and healthcare professionals, the journal serves as a repository of clinical insights with an international perspective. Its readership includes otolaryngologists, head and neck surgeons, ENT nurses, as well as scholars and academicians across fields like medicine, trauma, and surgery.

The journal aims to foster the analysis of clinical data from centers worldwide, utilizing standardized protocols to develop a globally accepted consensus on managing disorders within the field of otorhinolaryngology.

The journal does not levy charges for manuscript submission. AJOHNS accepts manuscripts on the basis of their merit and novelty. Physical copies of the journal issue/article may be charged extra along with postage dues.

All submission would follow a strict protocol through the editorial board and reviewers of the said subject. We aim to complete the review process in a period of 4-6 weeks after submission.

Paper should be submitted online to the submission platform. The Editorial board will ensure the quality of the articles. In case of any issues please contact sabarish@krishers.com.

PUBLISHING FREQUENCY

The Journal of Otolaryngology and Head & Neck Surgery is published three times a year. Each issue is dedicated to a specific topic of special interest within the fields of otorhinolaryngology, head, and neck surgery, providing focused and comprehensive insights for its readers.

COPYRIGHT

The authors retain the copyright for all editorial content published in the Journal of Otolaryngology and Head & Neck Surgery. Content may be used, in part or in full, for non-commercial purposes, provided proper attribution is given.

Authors are required to submit their manuscripts along with a completed Commercial Rights Transfer Form as part of the submission process.

READERSHIP

The Journal features clinical research on current practices in otorhinolaryngology, audiology, speech pathology, head and neck oncology, plastic and reconstructive surgery, and related specialties.

The journal's primary readership comprises ENT surgeons, along with oncologists, audiological physicians, and scientists, making it an essential resource for professionals and academicians in these fields.

OWNERSHIP AND MANAGEMENT

The Journal of Otolaryngology and Head & Neck Surgery is owned and managed under the auspices of Krishers Publishing House.

This ensures a strong foundation in delivering high-quality, peer-reviewed medical content to its readers and contributors worldwide.

LANGUAGE

AJOHNS journal is a English language Journal and we accept only articles or script in English language only

MESSAGE

Dear Colleagues,

It is an immense pleasure to write the editorial note “The Journal of Otolaryngology, Head & neck surgery”. The journal has been designed to be a medium for delivery of timely and thoughtful information on research and recent advances in the field of Otorhinolaryngology and head neck.

The volume 2 issue 1 series of our journal marks the significant steps towards indexing the publications and encouraging the authors to bring more valuable article on the subjects. This edition tried to assimilated the needs of the readers and in some ways may prove more popular with budding Otorhinolaryngologist and head neck surgeon of Northeast India and attract the global readers and authors.

I offered thanks to Dr N Brian Shunyu, the Editor-Chief who played a vital role in shaping this journal to these important millstones and also authors and reviewers who helped us in submitting, short listing and updating the articles and bringing them to this shape of publication.

Our goal is to follow the process that had already begun in taking the journal forward its infancy to the level of indexing and create the legacy of continues publications in days to come.

For readers of our journal, we hope you enjoy, learn and find it a source of up-to- date and high-quality articles. The journal has focussed on publishing original research article of interest, pictorial reviews, unique, relevant and highly valuable rare case reports and case series. I truthfully hope that you will find this issue as interesting and that you will enjoy and benefits from reading the publication.

Best wishes and Happy reading

Executive Editor

Dr. Jego Ori
Associate Professor
ENT, TRIHMS

We are delighted to share that our Journal volume 2 issue 1 is out. The Journal of Otolaryngology Head and Neck Surgery (Official Journal of NEBAOI) is an international, peer-reviewed and open-access journal. All the articles have DOIs so that the articles can be found and cited reliably forever. And now our Journal is going for indexing as we have followed all the basic scholarly publishing standards with a transparent, robust peer-review policy and strict publication ethical guidelines.

Once again, with Dr Jego Ori our Executive Editor, and the whole editorial team we take this opportunity to acknowledge all the authors who have sent their research work to be published in our esteemed Journal.

Editor-in-Chief

Prof (Dr). Neizekhotuo Brian Shunyu
